This three day training will enable you to Facilitate, Support, Provide Clarity, Encourage, and inspire victims/adults survivors of childhood sexual abuse through a practical biblically based model of healing.

You will learn how to help survivors find the power to overcome; you will learn how to help them conquer personal issues instead of enduring them. You will discover God's power of effortless change instead of your best efforts to change and how to facilitate healing and practical application into the lives of sexual abuse survivors!
